FREE DELIVERY

**Affordable** - Our 2-year-old bulls sell for similar prices as most yearling bulls but will breed more cows with less care and maintenance; and they will stay sound longer with less culling in future years.

**Carcass and Ultrasound Data** - All bulls are ultrasounded for marbling, ribeye and lean red meat percentage. Data from our bulls prove superior REA and Marbling.

**Problem Free** - The extra year to cull for fertility, growth, disposition, feet and legs, traveling ability and easy keeping on the range ensures more years of service for the buyer.

**Easy Calving** - Our cows calve unassisted in large pastures. Many of these bulls are sold each year to breed yearling commercial heifers.

**Birth Weights** - Range from 66 to 96 lbs., with many 70-lbs. heifer bulls in the sale.

**Over 40 years** - The only exclusive Two-Year-Old Charolais bull program in the U.S. We never sell yearling bulls.

**Volume Choice of Quality Genetics** - 160 bulls are Polled. Many sire groups of brothers.

On Feed  
Only 119 Days!

## Superior Carcass Data

Over 100 of our cull Purebred Charolais heifers fed only 119 days at North Platte Feeders.

- In weight: 754 lbs.
- Out weight: 1,271 lbs.
- Avg. REA: 15.1
- Choice: 86% (after only 119 days on feed)
- Avg. Marbling Score: 4.3
- Dry Conversion: 5.19 lbs. of feed per lb. of gain
- ADG: 4.3 lbs.

"At our feedlot, these heifers made superior gains from fantastic feed conversion. Their carcasses proved impressive, quality grading 86% Choice, with optimum yield and desired marbling scores. These are genetics for profitability." - North Platte Feeders

FLASH

In 2011, our Purebred Charolais Cull heifers graded 93% Prime or Choice with 66% cutability.
